Professional Summary

Digital media specialist and storyteller with 10+ years blending creative production, technology, and education in beauty. BA in Communications (Media Studies), CSUDH (2018). Global Education Technology and Innovation Manager at Dermalogica (Unilever Prestige), pioneering multicamera livestreams during COVID and using 3D modeling/AI to elevate skincare education. Expert in Adobe Creative Suite, DaVinci Resolve, Unreal Engine, and generative AI tools. Open to beauty/tech/education or full-time media production/agency roles.

Professional Experience

Global Education Technology and Innovation Manager

Dermalogica (Unilever Prestige)

2021 – Present

- Produce cutting-edge digital curriculum and educational content for professional skin therapists and global retailers, translating skincare innovations into engaging visuals.
- Create 3D simulated skin condition imagery using Unreal Engine's MetaHuman Creator to enhance educational accuracy and impact.
- Leverage DaVinci Resolve, Adobe Premiere Pro, After Effects, Photoshop, Affinity, ElevenLabs, and Adobe Firefly for full-cycle multimedia production.

Sales Operations Coordinator

Dermalogica

2013 – 2021

- Supported sales operations while leading digital media projects, including content creation and graphic design.
- Spearheaded retrofit of in-house auditorium into multicamera streaming studio during COVID, enabling high-quality global livestreams—making Dermalogica a leader in Unilever Prestige's in-house capabilities.
- Transitioned digital expertise into full-time innovation role.

Freelance Digital Media Creator (KVYA_Gerald)

Ongoing

- Produce cinematic videography, photography, editing, graphic design, and AI-enhanced personal content focused on emotional and impactful storytelling.

Education

BA, Communications – Media Studies

California State University, Dominguez Hills

2018
